Professional Summary

At Nordcloud, an IBM Company, I lead the technology strategy and vision in the Netherlands, driving market disruption and positioning us as the premier partner for complex multi-cloud solutions. My focus is on transforming our operational excellence into scalable strategic value for our clients. Innovation Acceleration and Talent Specialization. Previously, as a Delivery Executive and Customer Success Manager at Nordcloud, I mastered the art of translating technical designs into profitable, performance-driven solutions, consistently exceeding SLA targets. Prior to that, as Lead Cloud Architect at Tata Consultancy Services, I established enterprise-level cloud reference architectures and governance policies, building the foundation of scalable, secure cloud strategy.

Skills

- Technical Leadership
- Client relationship
- AI & Cloud expertise
- Innovative design solutions
- Strategy
- Mentorship

Work History

Nordcloud, an IBM Company – Country CTO

Netherlands • 10/2025 – Current

- Partner with leadership and sales team to drive technical strategy, pre-sales, and Nordcloud solution development.
- Lead early-stage client conversations to shape architecture vision, technology direction, and transformation roadmaps.
- Provide technical leadership across major accounts to ensure delivery alignment, architectural quality, and client satisfaction.

- Act as a trusted advisor for clients — helping navigate complexity, make key technology choices, and align cloud investments to business value.
- Represent the company externally in executive briefings, thought leadership, and technical community engagements.
- Mentor senior architects and engineers, support hiring efforts, and contribute to capability building across cloud, DevOps, and architecture.
- Help shape our go-to-market offerings and bring market trends and client feedback back into the business.

Nordcloud, an IBM Company – Delivery Executive

Netherlands • 03/2022 – 09/2025

- Managed delivery and projects for key customers, ensuring high levels of satisfaction and strict adherence to contractual commitments.
- Ensured fulfillment of contractual obligations and achievement of SLA performance targets through close collaboration with delivery teams.
- Oversaw service financial management, including revenue tracking, billing, forecasting, and profitability optimization in partnership with delivery units.
- Designed and implemented innovative services and solutions that improved customer experiences and operational efficiency.
- Acted as the primary point of contact for customers and delivery teams, ensuring seamless communication and issue resolution.
- Managed risks effectively, including mitigation of service-level risks to maintain operational stability.
- Built and maintained strong customer relationships by engaging stakeholders at the operational governance level.
- Spearheaded change management and upselling initiatives by identifying and creating leads, securing contract extensions, and collaborating with sales to propose value-added services.
- Maintained accurate and comprehensive service documentation in coordination with delivery teams.
- Championed continuous improvement initiatives to enhance delivery efficiency and quality.

Tata Consultancy Services – Lead Cloud Architect

Amsterdam, Netherlands • 09/2020 – 02/2022

- Developed cloud reference architectures, governance policies, security models, and best practices to develop capacity.
- Partnered with application managers to develop capacity thresholds for requirements for new projects and existing environments.
- Analyzed prospect requirements and established parameters to ensure client receives the right solution, with the Sales Representative.

Tata Consultancy Services – Solutions Lead, Cloud Architecture

Frankfurt, Germany • 10/2017 – 09/2020
